

14-DAY MULTIPLE SURFACE

ShurRELEASE BLUE™ PAINTER'S TAPE

CP 27

CP 27 is better than ever.

Our new adhesive has increased tack. CP 27 sticks and stays affixed to surfaces without lifting or flagging. It now sticks better to the wall and to itself, when overlapping strips of tape. By not lifting or flagging, CP 27 prevents seepage and leaves sharper, cleaner paint lines.

CP 27 works on almost any surface: cured painted surfaces, metal, wood, glass and more. It works indoors and out; it's UV-resistant for 14 days. It removes easily to leave sharp lines and no residue. No bleed-through or slivering either. This is the masking tape to use on painting projects – home and commercial.

> Increased tack

Sticks and stays affixed to surfaces without lifting or flagging.

> Residue free

Removes cleanly from cured painted surfaces, glass, wood and metal.

> UV Resistant

Lasts up to 14 days in sunlight.
