

HIGH PERFORMANCE, MID TEMPERATURE

INDUSTRIAL MASKING TAPE

CP
500

Our high performance industrial masking tape is ideal for today's high tech transportation industry. CP 500 performs best in mid-temperature painting applications on cars, trucks, buses, and wet sanding applications.

> **High adhesion**

Adheres quickly and easily to metals, rubber and plastics. Exhibits excellent holding power up to 300° F

> **Clean removal**

Strips cleanly with no residue or paint flake after baking and extended dwell times. Resists adhesive transfer, preventing costly clean up.

> **Sharp, flat paint lines**

Smooth crepe paper tape lifts clean without slivering or adhesive transfer
Resists moisture and solvents to minimize bleed-through

> **Easy to use**

Conforms to curves and contours
Tears straight and easily
Resists curling off the roll and lifting once applied

HIGH PERFORMANCE, MID TEMPERATURE

INDUSTRIAL MASKING TAPE

CP 500

Tensile	25 lbs/in width
Adhesion to Stainless Steel	36 oz/in width
Thickness	6.4 mils
Elongation	10 %
Service Temperature Range	45° F to 300° F

Mid Temperature Industrial Masking Tape for:

- masking cars, trucks, and buses
- wet sanding applications
- Excellent adhesion
- Removes cleanly
- Leaves sharp paint lines
- Minimizes bleed-through

Note: Not recommended for use on anodized aluminum
