

FOR ASBESTOS AND MOLD ABATEMENT

INDUSTRIAL GRADE DUCT TAPE

PC 610

Our 10 mil solution for mold/asbestos abatement and rugged environments.

This is no ordinary duct tape. You can take it out of a cold truck, walk into a cold room and seal doors, walls, and windows with cold poly-sheeting.

Our tape sticks. At temperatures as cold as 25° F.

Expect PC 610 to hold up for the whole job - our new high-tack adhesive has superior shear performance. Instant quick stick makes application fast and easy on poly-sheeting, metal, and unpainted wood. Easy to use because it's easy to tear and it won't curl or twist off the roll. Ask for PC 610 today.

> High tack

Quick stick to rough surfaces and poly-sheeting at temperatures as low as 25° F.

> Superior shear on poly sheeting

Outlasts the competition by a wide margin in lab testing. Specialized adhesive stays up for the whole job.

> Reduces waste

Will not curl, twist, or fold over on itself, becoming unusable and creating excess waste. Removes leaving virtually no residue.

FOR ASBESTOS AND MOLD ABATEMENT

INDUSTRIAL GRADE DUCT TAPE

PC 610

Industrial Grade Cloth Duct Tape for sealing walls, doors, and windows with poly-sheeting.

- Works in cold weather
- Instant quick stick
- Easy tear
- Won't twist or curl off the roll

Tensile Strength	22 lbs/in width
Adhesion to Stainless Steel	55 oz/in width
Thickness	10.0 mils
Service Temperature Range	25° F to 200° F

PC 629

Contractor Grade Cloth Duct Tape for holding poly-sheeting in the asbestos and mold remediation industry.

- Excellent cold weather performance
- New high-tack adhesive
- Does not twist or curl off the roll

Tensile Strength	27 lbs/in width
Adhesion to Stainless Steel	65 oz/in width
Thickness	11.0 mils
Service Temperature Range	25° F to 200° F
