## The bottom line in Bottom Board Tape

Shurtape has developed PC658 Bottom Board tape not only meets, but also exceeds the rigorous demands of the manufactured home industry.

Competitive tapes are harder to tear and have a tendency to wrinkle. PC658 has both excellent tensile strength and industry-leading adhesion, necessary for tough applications such as surface masking in peening operations where these characteristics are valuable. In Addition, PC658 performs well under extreme temperature conditions and offers premium thickness for heavy-duty performance. And it still makes the best bottom board seals in the industry.

### > Seams and Seals

Seaming and Sealing bottom board materials used in the mobile/manufactured housing industry.

### > Repairs

Repairs holes in bottom board left by plumbers, electricians, etc. during setup and construction.

### > Protects

Protection of metal parts or surfaces in metal/plastic peening operations

### > High Adhesion

Perfect for tough applications requiring excellent tensile, extremely high adhesion, and thickness.

# Shurtape®

Seams and Seals with Super Adhesion

# Bottom Board Tape™

## PC 658

**Bottom Board Tape** used for seaming and sealing bottom board materials in pre-manufactured homes and RV's

- Protects surfaces
- Works Well in Extreme Weather
- Excellent Tensile Strength and Adhesion

<b>Tensile</b>	30 lbs/in width
<b>Adhesion to Stainless Steel</b>	100 oz/in width
<b>Thickness</b>	17 mils
<b>Elongation</b>	10 %
<b>Service Temperature Range</b>	50° F to 200° F

## REGIONAL SALES OFFICES & DISTRIBUTION CENTERS

### North Carolina

Catawba Industrial Place  
3389 Catawba Industrial Place  
Catawba, NC 28609

tel: (828) 322-2700  
(888) 442-8273  
fax: (828) 322-4029

### Arizona

First Commerce Center  
725 N 73rd Avenue, Suite 112  
Phoenix, AZ 85043

tel: (623) 463-5886  
(800) 342-8273  
fax: (623) 463-5809
