

PROTECT UNINSTALLED DUCTS FROM CONTAMINANTS

SHURWRAP[®] PROTECTIVE FILM TAPE

PF 220

PF 220 is a Shurtape product designed to protect uninstalled HVAC equipment and galvanized steel ductwork from contaminants, such as dirt, dust, moisture and insects. PF 220 is formulated to achieve superior clean removability. In addition to not leaving residue, PF 220 is engineered with increased elongation which reduces the amount of product used for a single application. Other features include protection of ductwork when it's being stored, transported or used in "cleanrooms," where contamination would be unacceptable.

> Protects

PF 220 ensures protection of ducts against contaminants, debris, and contamination occurring from dust, moisture, dirt and insects.

> Holds strong, but easily removed

Maintains a strong seal during storage, installation and transport, yet is easily removed without leaving residue.

> Weather resistant

Designed for extended UV exposure with the added benefit of a cold-weather adhesive.

PROTECT UNINSTALLED DUCTS FROM CONTAMINANTS

SHURWRAP® PROTECTIVE FILM TAPE

PF 220

Protective Film Tape that seals HVAC spiral and rectangular galvanized ductwork to protect the interior from contaminants.

- Increased elongation to guard against punctures and tears.
- Easily removed without leaving residue.
- Designed with extended UV exposure.

Tensile Strength	7.8 lbs/in width
Adhesion to Stainless Steel	14 oz/in width
Thickness	2.4 mils
Elongation	1200%
Adhesion to Backing	5.7 oz/in width
