

# PROPERTY MANAGEMENT SOLUTIONS

## PAINTER'S TAPES

If your walls could talk they would share the time and effort you put into maintaining and restoring your property. From the major decisions to the smallest of details, you invest valuable resources and hours of effort into caring for these spaces as well as people and things in them.

At Shurtape, we understand that your time is valuable. You need a dependable painting tape that lets you get the job done right the first time. Eliminate time consuming touch-ups with our line of efficient, reliable tapes that respect your time and effort.

Shurtape introduces a line of painting tape solutions that are right for every job.

### Sharp Paint Lines

FrogTape® is the only painter's tape treated with PaintBlock® Technology. PaintBlock® is a super-absorbent polymer which reacts with latex paint and instantly gels to form a micro-barrier that seals the edges of the tape, preventing paint bleed. The result? Very sharp paint lines! This means less time spent prepping and touching up, and more time for other jobs.

### Delicate Surfaces

Razor Edge® Gold is essential for any creative design, especially on delicate surfaces. This high performance tape won't rip or sliver, and leaves behind razor sharp paint lines. Our low tack adhesive also removes easily from delicate surfaces and won't damage drywall, faux finishes or fresh paint - 24 hours old.

### Exceptional Performance

ShurRELEASE® Blue Painter's Tape sticks and stays put on almost any surface and then removes easily, even after 14 days in sunlight. Useful for a variety of surfaces, including glass, vinyl and wood, this tape gets the job done right the first time.
