

FOR ASBESTOS AND MOLD ABATEMENT

INDUSTRIAL GRADE DUCT TAPE

PC 610

Our 10 mil solution for mold/asbestos abatement and rugged environments.

This is no ordinary duct tape. You can take it out of a cold truck, walk into a cold room and seal doors, walls, and windows with cold poly-sheeting.

Our tape sticks. At temperatures as cold as 25° F.

Expect PC 610 to hold up for the whole job - our new high-tack adhesive has superior shear performance. Instant quick stick makes application fast and easy on poly-sheeting, metal, and unpainted wood. Easy to use because it's easy to tear and it won't curl or twist off the roll. Ask for PC 610 today.

> **High tack**

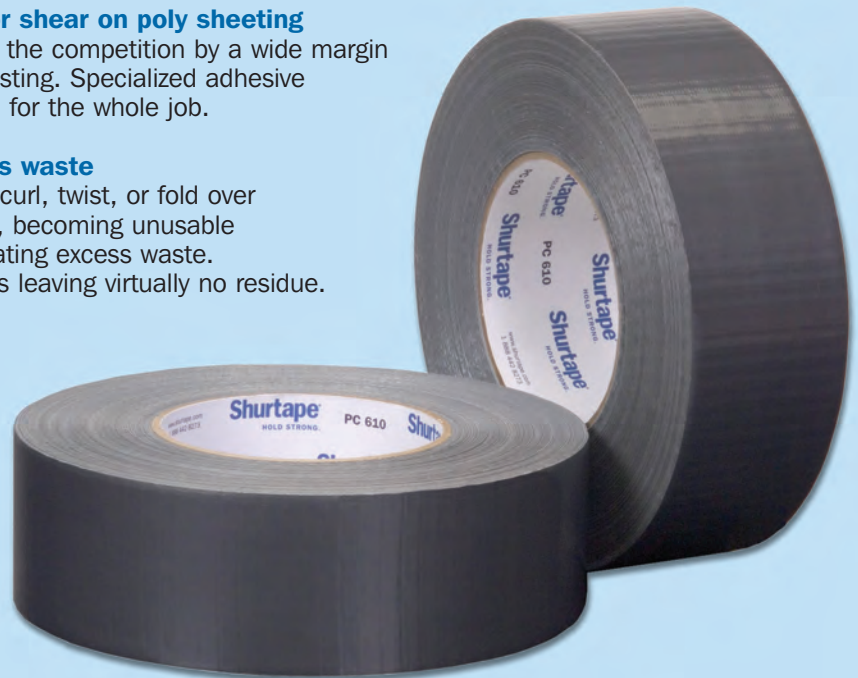

Quick stick to rough surfaces and poly-sheeting at temperatures as low as 25° F.

> **Superior shear on poly sheeting**

Outlasts the competition by a wide margin in lab testing. Specialized adhesive stays up for the whole job.

> **Reduces waste**

Will not curl, twist, or fold over on itself, becoming unusable and creating excess waste. Removes leaving virtually no residue.

Shurtape | HOLD STRONG.
