

HIGH TACK, STRONG HOLD

HIGH PERFORMANCE GRADE FLATBACK PAPER TAPE

You are committed to delivering high-quality products that meet your customers' needs, while constantly looking for opportunities to enhance performance and efficiencies throughout your manufacturing process. You rely on tape to get the job done consistently and demand exceptional performance, especially since tape failure could result in costly waste and downtime.

Shurtape FP 115 flatback paper tape is specially designed to meet the demands of roll start-up, splicing, and end tabbing applications in the paper, tube, and core manufacturing industries.

A high performance grade flatback paper tape, FP 115 delivers reliable performance, aggressive hold, easy tape start-up, and consistent unwind to save you time and money.

TRUE TO YOUR WORK™

QUALITY YOU CAN COUNT ON

Shurtape FP 115 is engineered to help you keep your lines running at peak production. It effectively secures the paper to the core during roll start-up, holds the splice during processing, and anchors the end of the roll securely. It is also ideal for tasks in which the tape must stick well to itself, including shingling and overlapping applications.

With FP 115, you can be confident your work will continue to reflect your exacting standards.

STRONG HOLD

The aggressive rubber-based adhesive sticks quickly to both smooth and porous papers, including 100-percent recycled paper. It also adds shear strength, which holds safely during processing at both ambient and elevated temperatures.

EASY HANDLING

Designed with a unique release coat, FP 115 is easy to start-up off the roll, unwinds smoothly and consistently, and tears cleanly by hand to keep work moving quickly and efficiently.

MOISTURE/ HUMIDITY RESISTANT

FP 115 is resistant to moisture and humidity, which prevents the tape from lifting, puckering, and curling.

TOUGH CONSTRUCTION

A reinforced flatback paper backing adds strength and stability to withstand the rigors of the job, including the pressure of rollers and tension devices.
