

Premium Painter's Tapes

When crisp, clean lines on your next painting project are a must, trust the FrogTape® family of painter's tapes. Available in Delicate Surface, Multi-Surface, and new Pro Grade formulations, FrogTape painter's tapes are engineered to unwind easily, stick quickly and remove cleanly. Plus, they are treated with patented PaintBlock® Technology, a super-absorbent polymer that reacts with the water in latex paint and instantly gels to form a micro-barrier that seals the edges of the tape, preventing paint bleed and the need for touch-ups.

No matter the job, FrogTape delivers professional performance you can be proud of.

The ONLY Tape With
PAINTBLOCK®
TECHNOLOGY
Seals Tape Edges!

TECHNOLOGIES

Premium Painter's Tapes

CF 160/FrogTape®

Delicate Surface Painter's Tape

Premium grade, delicate-surface painter's tape for interior use on freshly painted surfaces (24 hours old), faux finishes, primed wallboard and wallpaper. Designed with a lower adhesion level to help prevent surface damage.

CF 120/FrogTape®

Multi-Surface Painter's Tape

Premium grade, multi-surface painter's tape for interior or exterior masking on a variety of surfaces, including cured painted walls, wood trim, glass and metal. This medium adhesion painter's tape can withstand direct sunlight for up to 7 days.

CP 130/FrogTape®

Pro Grade Painter's Tape

Multi-surface painter's tape for use in paint and masking applications that demand professional performance and 14-day clean removal, including masking cured painted walls and trim, glass and metal.
