

HIGHEST HOLDING POWER IN THE INDUSTRY

# HP SERIES CARTON SEALING TAPES

You place high value on uptime. And demand a carton sealing tape that's strong enough to hold and tough enough to endure the rigors of your production, shipping and storage environment. It's why Shurtape® engineers its HP Series carton sealing tapes to the highest standards – to keep your lines running at peak production, while delivering the consistent, secure seal you demand. So you can be confident your seal will maintain its hold from the packaging line to its final destination.

Constructed of biaxially oriented polypropylene (BOPP) film with a unique hot melt adhesive formula, HP Series carton sealing tapes are purpose-built for performance in manual and automated case sealing applications:

- Forms an instant, permanent bond with cartons
- Offers the highest holding power to fiberboard in the industry
- Special release coating for Good to the Core® performance and consistent, low-force unwind off the roll
- High-tack synthetic hot melt adhesive featuring Hold Strong® technology for a long-lasting, secure seal

HIGHEST HOLDING POWER IN THE INDUSTRY

# HP SERIES CARTON SEALING TAPES

## TECHNICAL SPECIFICATIONS

		Tensile	Adhesion to Stainless Steel	Thickness	Holding Power to Fiberboard	Service Temperature Range	Application Temperature Range
HP 100®	General purpose grade hot melt packaging tape for sealing lightweight cartons.	21 lbs/in width	43 oz/in width	1.6 mils	10,000 min	-20 - 150 F	35 - 110 F
HP 200®	Production grade hot melt packaging tape for medium-weight carton sealing.	27 lbs/in width	44 oz/in width	1.9 mils	15,000 min	-20 - 150 F	35 - 110 F
HP 300®	Performance grade hot melt packaging tape for sealing medium-weight cartons subjected to handling stress.	30 lbs/in width	50 oz/in width	2.2 mils	25,000 min	-20 - 150 F	35 - 110 F
HP 400®	High performance grade hot melt packaging tape for sealing large, bulky or heavy cartons.	33 lbs/in width	54 oz/in width	2.5 mils	35,000 min	-20 - 150 F	35 - 110 F
HP 500®	Heavy duty grade hot melt packaging tape for sealing heavy, bulky cartons subjected to high stress or extreme handling.	42 lbs/in width	58 oz/in width	3.0 mils	45,000 min	-20 - 150 F	35 - 110 F
HP 800	Strongest, thickest packaging tape in the HP Series line to produce heavy duty carton seals.	54 lbs/in width	95 oz/in width	3.4 mils	45,000 min	-20 - 150 F	35 - 110 F
HP 132®	Cold environment hot melt packaging tape for lightweight carton sealing.	21 lbs/in width	30 oz/in width	1.6 mils	10,000 min	-20 - 100 F	20 - 75 F
HP 232®	Cold environment, production grade hot melt packaging tape for sealing medium-weight cartons.	27 lbs/in width	30 oz/in width	1.9 mils	10,000 min	-20 - 100 F	20 - 75 F
HP 235	Medium duty hot melt packaging tape for sealing highly recycled cartons, including 100 percent recycled.	27 lbs/in width	50 oz/in width	2.0 mils	15,000 min	-20 - 150 F	35 - 110 F
HP 240	Production grade hot melt packaging tape with printed stock messages for sealing medium-weight cartons.	27 lbs/in width	44 oz/in width	1.9 mils	15,000 min	-20 - 150 F	35 - 110 F
HP 250	Custom-printed, production grade hot melt packaging tape for sealing medium-weight cartons.	27 lbs/in width	44 oz/in width	1.9 mils	15,000 min	-20 - 150 F	35 - 110 F

All Shurtape HP Series Packaging Tapes deliver Good to the Core® performance meaning you get full use of every roll.

# HP SERIES CARTON SEALING TAPES

## HIGHEST HOLDING POWER IN THE INDUSTRY

### HP 100®

General purpose grade hot melt packaging tape for manual or automated industrial sealing of lightweight cartons with minimal exposure to handling, shipping and load stress. HP 100® is engineered with an aggressive, high-tack adhesive and excellent holding power to keep carton seals intact.

### HP 132®

Cold environment hot melt packaging tape for manual or automated industrial sealing of lightweight cartons in environments such as food processing and packaging facilities, as well as in cold weather moving/storage and unheated warehouses.

### HP 232®

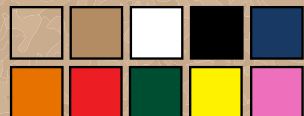

Cold environment, production grade hot melt packaging tape for sealing medium-weight cartons in cold temperature environments, such as food processing and packaging facilities, as well as in cold weather moving/storage and unheated warehouses in cold climates.

### HP 200®

Production grade hot melt packaging tape used to create instant closures on medium-weight cartons in everyday manufacturing and shipping environments. Also available in a variety of colors.

### HP 300®

Performance grade hot melt packaging tape that offers extra high strength and holding power for manual or automated industrial sealing of medium-weight cartons subjected to increased handling stress.

### HP 400®

High performance grade hot melt packaging tape for higher speed, critical closure carton sealing of large, bulky or heavy content cartons. Offers extra high strength and holding power to deliver a secure seal in a variety of manual or automated industrial sealing environments, particularly moderate to severe handling environments.

### HP 235

Specially formulated hot melt packaging tape that offers higher shear, tack and adhesion when sealing medium-weight, highly recycled cartons, particularly 100 percent PCW/OCC cartons.

### HP 240

Production grade hot melt packaging tape featuring easy-to-read, printed stock messages to prevent pilferage and inform handlers of care. For manual or automated industrial carton sealing of medium-weight cartons.

Keep Refrigerated and Keep Frozen designs are available as HP 242 Cold Environment packaging tape

### HP 250

Production grade hot melt packaging tape that can be custom printed with a logo or message to prevent pilferage and allow personalization of outgoing cartons. For manual or automated industrial carton sealing of medium-weight cartons.

### HP 500®

Heavy duty grade hot melt packaging tape for manual or automated industrial sealing of heavy, bulky cartons, including overstuffed or under-filled cartons, in high stress and extreme handling conditions. Designed with extra aggressive quick stick, bonding strength and holding power.

### HP 800

Extremely tough hot melt packaging tape used for manual and automated industrial sealing to create heavy duty carton seals to protect high-value items such as military supplies and electronics, as well as for sealing hazardous materials and chemicals. Delivering excellent high-tack adhesion and high abrasion and tear resistance, HP 800 is the strongest, thickest packaging tape available within the HP Series line.

## TIME TO UPGRADE YOUR TAPE APPLICATORS?

If you demand packaging equipment that will help you achieve efficiency on the line, as well as produce a quality seal you can rely on...look no further than ShurSEAL®.

ShurSEAL Packaging Solutions combine Shurtape® HP Series carton sealing tape with PrimeLoc™ tape application technology, which together enhance case sealing operations by:

- Reducing material waste
- Reducing downtime
- Increasing safety
- Increasing content security
- Reducing maintenance costs

This is achieved through unique design features such as carton sealing tape featuring Good to the Core® performance, unmatched wipe-down force that allows for full utilization of the tape's adhesive, and patented Folded Edge® Technology for reinforced strength and a ready-to-open seal.
