PAINT AND MASKING TAPES

FrogTape® offers premium-quality painting tapes that ensure professional results for any painting project. FrogTape® Multi-Surface (green), Delicate Surface (yellow) and Pro Grade (blue) formulations feature PaintBlock® Technology, a super-absorbent polymer that seals the edges of the tape to keep paint out and lines sharp. Offering high adhesion and quick stick, FrogTape® Pro Grade Orange™ is the only production grade painter's tape you need to get the job done (does not contain PaintBlock® Technology).

CP 27®

Premium grade, medium adhesion 14-Day ShurRELEASE® blue painter's tape for indoor and outdoor masking of multiple surfaces; easy, no-residue removal.

CP 106

General purpose grade, medium-high adhesion masking tape for use on multiple surfaces.

CP 66®

Contractor grade, high adhesion masking tape for applications that demand quick stick and conformability; a paint and sundries industry standard.

PERFORMANCE MASKING TAPES

FrogTape® Performance Masking Tapes offer various levels of heat resistance with clean removal for use in industrial applications. Ideal for use in painting and metal fabrication applications in the transportation, marine and general MRO industries, these high performance masking tapes can resist temperatures from 225 F up to 325 F for up to 30 minutes and higher temps for shorter durations. When subjected to extreme temperatures as well as a variety of industrial coatings, the rubber adhesive system allows for clean removal from metal, rubber, plastics and other surfaces.

PAPER TAPES

FP 97

General purpose grade flatback kraft paper tape with a synthetic rubber-based adhesive for splicing and packaging applications; meets FDA specifications for indirect food contact.

FP 227

High adhesion flatback paper tape available in a variety of colors, including high-visibility fluorescents. Can be used printed or unprinted for labeling and color-coding tasks on a variety of surfaces, including vinyl, metal, glass, plastic and rubber. All colors except fluorescent conform to ASTM D-4236.

CONTAINMENT TAPES

DS 154

Professional grade, double-sided containment tape used as a one tape, one step solution for creating high-performance containment systems.

CP 327

Premium grade blue containment tape offering durability and a strong hold for restoration and abatement jobs; for interior or exterior use.

PC 608

Contractor grade, co-extruded poly-hanging duct tape offering high tack and exceptional performance when building containments for remediation, restoration and abatement jobs.

DUCT AND GAFFER'S TAPES

PC 6

Economy grade, co-extruded cloth duct tape offering good conformability and easy handling for non-critical, general use applications; 6 mil.

PC 7

Utility grade co-extruded duct tape for use across a variety of applications, surfaces and weather conditions; 7 mil.

PC 8

General purpose grade cloth duct tape with aggressive adhesive and best-in-class performance for a variety of applications; 8 mil.

PC 9

Contractor grade co-extruded duct tape for use across a variety of applications, surfaces and weather conditions; 9 mil.

PC 622

Premium grade, 14 mil cloth duct tape used in stucco masking, as well as applications that require a highly conformable, strong tape.

PC 624

Premium nuclear grade cloth duct tape designed for performance and quality; meets ASME NQA-1 guidelines; 13 mil.

PC 625

Military spec lusterless cloth duct tape engineered for durability and performance; 12.5 mil.

T-Rex®/PC 745

Super-tough, co-extruded T-Rex® brand cloth tape for all-weather use on rough surfaces, for heavy duty repairs and can also be used as a bottom board tape in the manufactured housing industry; 17 mil.

P- 628

Professional grade gaffer's tape for general applications in the convention, hospitality, exhibition, trade show and A&E industries.

HVAC TAPES

AF 100

UL 181A-P/B-FX Listed aluminum foil HVAC tape for joining and sealing joints, connections and seams on rigid fiberglass ductboard and flexible air duct.

DC 181

UL 181B-FX Listed and printed film tape for use on Class 1 Flex Duct in temperatures from -10 F to 210 F.

PC 857

UL 181B-FX Listed and printed cloth duct tape used in the HVAC industry to seal, seam and join Class 1 Flex Duct.

PACKAGING TAPES

HP Series

Ranging from 1.6 mil general purpose to 3.4 mil extremely tough options, HP Series hot melt packaging tapes combine an aggressive, high-tack adhesive with Hold Strong™ technology to keep carton seals intact. HP Series packaging tapes are recommended for manual and automated industrial sealing of light to heavy weight cartons in a range of case sealing environments. Also available in specialty formulations for cold temperature environments and for sealing recycled cartons.

GS Series

WP 100

Economy grade reinforced paper tape with water activated adhesive for sealing light- to medium-weight cartons.

SPECIALTY TAPES

DF 545

Double-coated cloth tape for securing carpet and pad in the hospitality industry, and can also be used for general purpose hanging and splicing applications.

DF 642

Industrial grade double-faced cloth tape for holding and mounting applications in the hospitality industry.
